<thumbs up>

would I be inaccurate to say that of the total....Marijuana dollars into the public school fund are about 1/100th of the total.
so the $279 million that Denver got in fy18-19 from the state.....about $2.7 million could be calculated as mj $$.
right?

of course
i guess what i'm hopin gfor is a comment that says none of the money is earmarked for teacher salaries b/c.....

also...some $ goes into the State Public School fund, which in part goes toward the equalization dollars.
is that about $41mil into a fund of $38bil ?

Hey David,

As you know, the pot tax revenue distribution is dictated by statute and from the constitution and then based upon the individual allocation/distribution methods within each individual grant/program.
The distribution and history of how it panned out in legislation is explained on this webpage:
https://www.cde.state.co.us/communications/2018marijuanarevenue

DPS does receive its share of the marijuana tax revenue:

	School Bullying Prevention and Education Grant		School DropOut Prevention Grant		Early Literacy Grant Program		School Health Professional Grant Program				Rural Districts

Jeremy
Hope you're well.
As expected, so many people still ask, "What about all that pot money?" when the issue of the Denver Teachers strike comes up.
So, we're gonna write a shorty that takes that one head-on.

So....
From your world....why can't Denver use any of the marijuana tax money distributed through the funds allotted to Dept of Ed? (the discretionary stuff, that is)
